HOW WE ORGANIZE OURSELVES

R.I.S. Our third graders are starting their new sixth theme **How we organize ourselves**. An inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making; economic activities and their impact on humankind and the environment.

During this inquiry our students will expand their thinking and research skills to list the different types of communities (urban, suburban, and rural) and the community helpers. The government sets the laws, forces consequences, and offers public services to its citizens. They will identify the purpose of rules and laws in a community (protect rights, provide benefits, assign responsibilities, establish order, provide security, and manage conflict). Also, They will identify the responsibilities of authority figures at home, school, and in the community.

This is a glimpse into what we will be doing for the next 4 weeks. The learning experiences are driven by the students. We are excited to guide our students through this process and we cannot wait to see what they will explore.

Central idea: A community functions and improves when its members follow shared rules and routine.

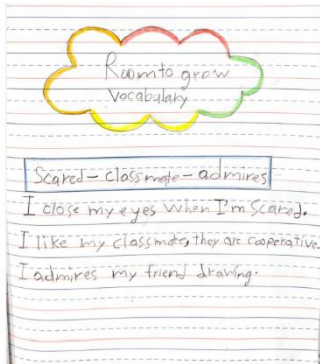

(Key Concepts) learning through: function, form, responsibility.

Related concepts: roles, safety, democracy.

Lines of inquiry:

- community members' role (function).
- community needs rules and routine (Form).
- Importance of following rules and safety procedures in community (responsibility).

Learner Profiles /attributes: Principled, Thinker, Caring

Approaches to learning (ATL's):

Social: I can take on a variety of roles that helps in growing a community.

I can Listen with curiosity, speak with candor, and act with integrity.

- I can listen closely to others' perspectives and to instructions.

Research: I know that we can find information from different sources and using different tools.

Self-management: I know Positive body language supports my points, helps me convey ideas more clearly, and avoids sending mixed messages.

-I can Listen with curiosity, speak with candor, and act with integrity.

- I can listen closely to others' perspectives and to instructions.

- I'm being respectful and appreciative.

- I Show gratitude and interests.

Approaches to learning (ATL's): Self Management, Social, Research skill.

Learner Profiles /attributes

Caring attributes including kindness, empathy, compassion, consideration, patience, generosity, charity, and interpersonal skills. Good citizenship, including patriotism, concern for the common good and the community, responsible decision-making skills, and respect for authority and the law.

Thinker students are people who exercise initiative in applying thinking skills critically and creatively. Principled student who possesses a strong sense of fairness. It's someone who respects the dignity and feelings of others, is honest and accountable, and accepts both responsibility for their decisions and the consequences that accompany them.

During math inquiry Students can solve word problems involving liquid volume and mass. Also, they can measure objects to the nearest half and quarter inch.

Learner Profiles / Attributes: thinker :Students will find ways to help the community by planting trees, cleaning their neighborhood, designing brochure about the importance of following rules and laws in the community. making reasoned, ethical decisions.

Learner Profiles / Attributes: Principled :Students will learn to show responsibility. They should understand the importance of following the laws and carrying the consequences of their actions.

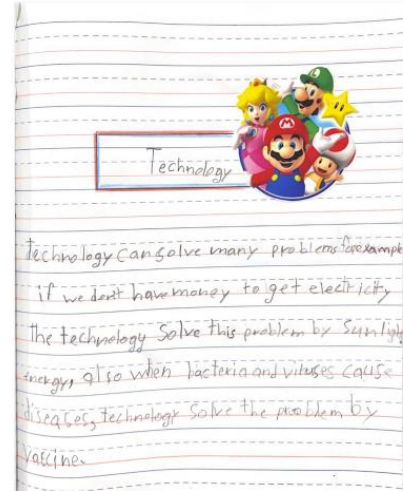

Learner Profiles / Attributes: Caring :Students will learn how to show kindness and advice others.

HOME CONNECTIONS

You may wish to do the following labs at home with your child.
They are easy and fun!

- How might people get around in the future? Draw a picture of a tool that could help people move in the future. Write a caption for your picture.

Search your home for one complex machine. Identify each simple machine in the complex machine.

Taking actions

Is your child taking action at home or in the community?

Send pictures and stories to share in our newsletter.
