Communication & social skills.

Dear readers,

Our Second graders exploring the fourth transdisciplinary theme **"How we organize ourselves"**

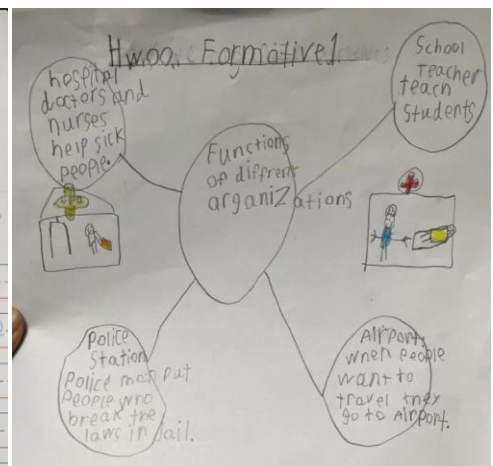

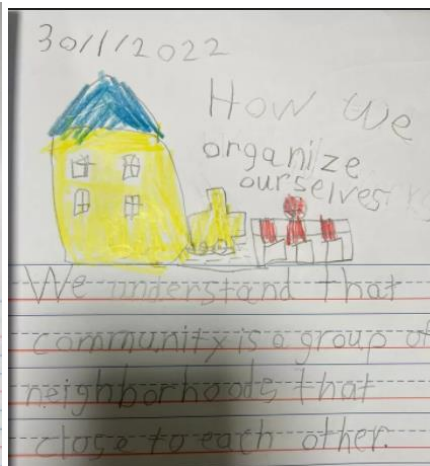

An inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making; economic activities and their impact on human and environment. Interaction between the natural.

1- Tuning in & finding out:

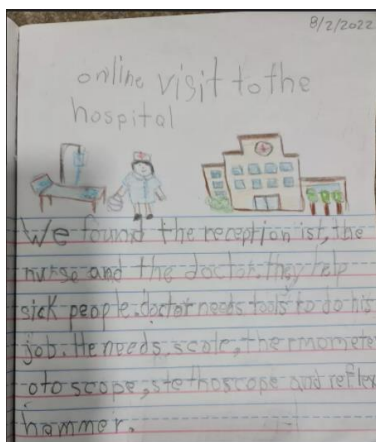

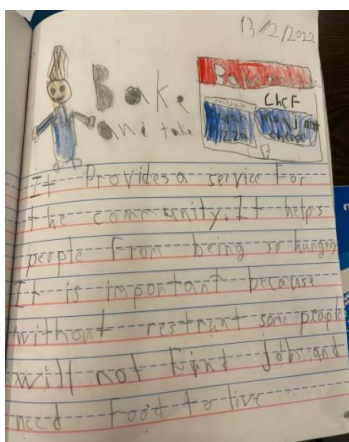

During this inquiry, our students have learned and explored the meaning of a neighborhood and community. And did their own reflections and draw it from their beautiful and creative perspective.

Also our Students conducted an interview with one family member of his/ her choice and record their answers to the following questions:

- What is the name of organization they work in?
- What is their job/role?
- Why is that role is important?
- how do they help people in their community?

2- Sorting out:

Our students also learned about an organization, what makes an organization and who works there and how does it function, they explored and names many organizations that they could

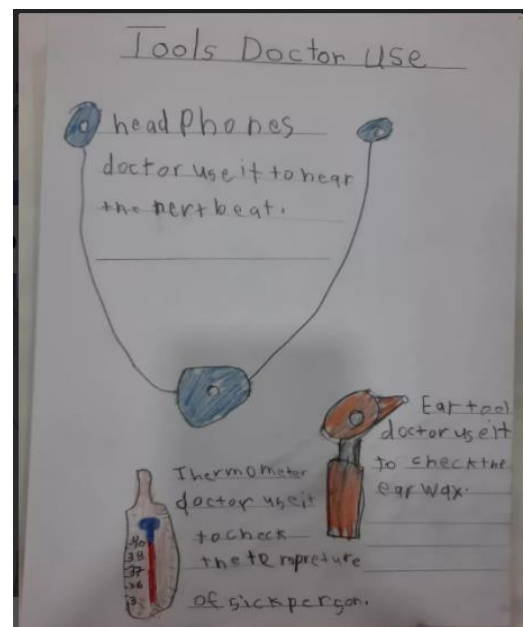

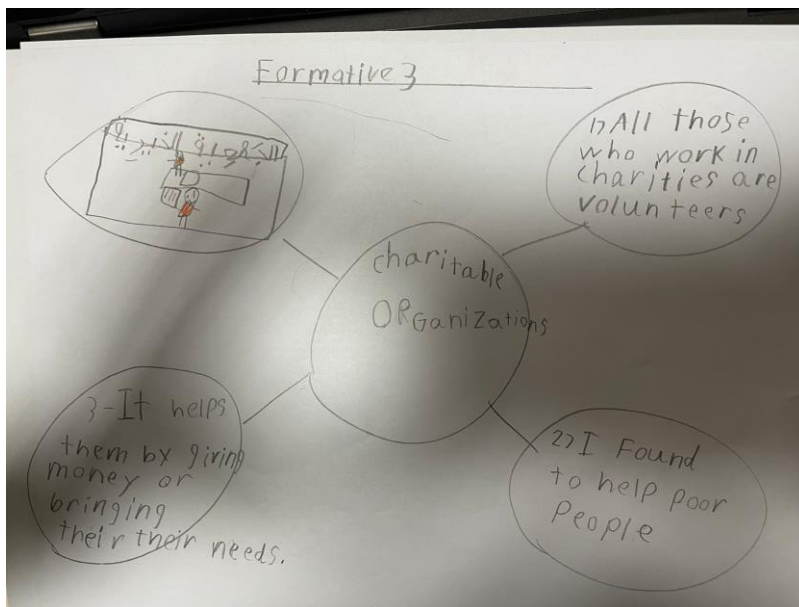

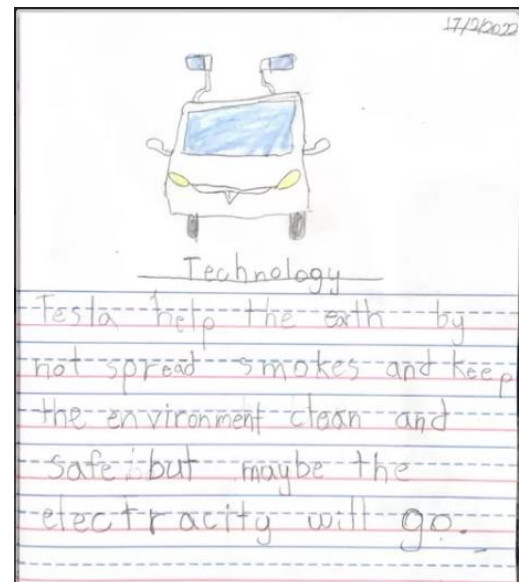

find in their city.

Principled Thinkers

3- Going further:

Learners searched and searched about different organizations and had a virtual field trip into a Charity, learned and inquired that not all organizations are profitable and sometimes you can do volunteer work for the sake of goodness.

4- Making conclusion & Taking action:

Learners started making and creating their own organizations and setting goals for this organization that aims to help people or animals with it .
