

## What is I.B ?

### RIS is heading for IB Education

**IB Education**- Founded in 1968, the International Baccalaureate® (IB) is a non-profit educational organization of international education (PYP, MYP, DP, CP) that foundation offering four highly respected programs develop the intellectual, personal, emotional and social skills needed to live, learn and work in a rapidly globalizing world.

The International Baccalaureate® aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

#### Why IB is different?

international Baccalaureate® (IB) programmes aim to do more than other curricula by developing inquiring, knowledgeable and caring young people who are motivated to succeed.

We strive to develop students who will build a better world through intercultural understanding and respect.

IB programme frameworks can operate effectively with national curricula at all ages; more than 50% of IB World Schools are state-funded.

The IB's programmes are different from other curricula because they:

- encourages students of all ages to think critically and challenge assumptions
- develop independently of government and national systems, incorporating quality practice from research and our global community of schools
- encourages students of all ages to consider both local and global contexts
- Develop multilingual students.
